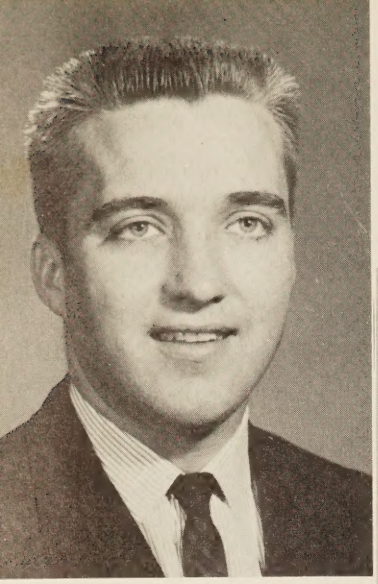
FOREWORD

The experience of carefree high school days is both a challenge and an opportunity for teenage boys and girls in America. The staff has worked long and hard in trying to record the events of another year of this experience. In the coming years we the staff sincerely hope that the 1964 Wigwam will serve as a reminder of these years that come only "Once In A Life Time."

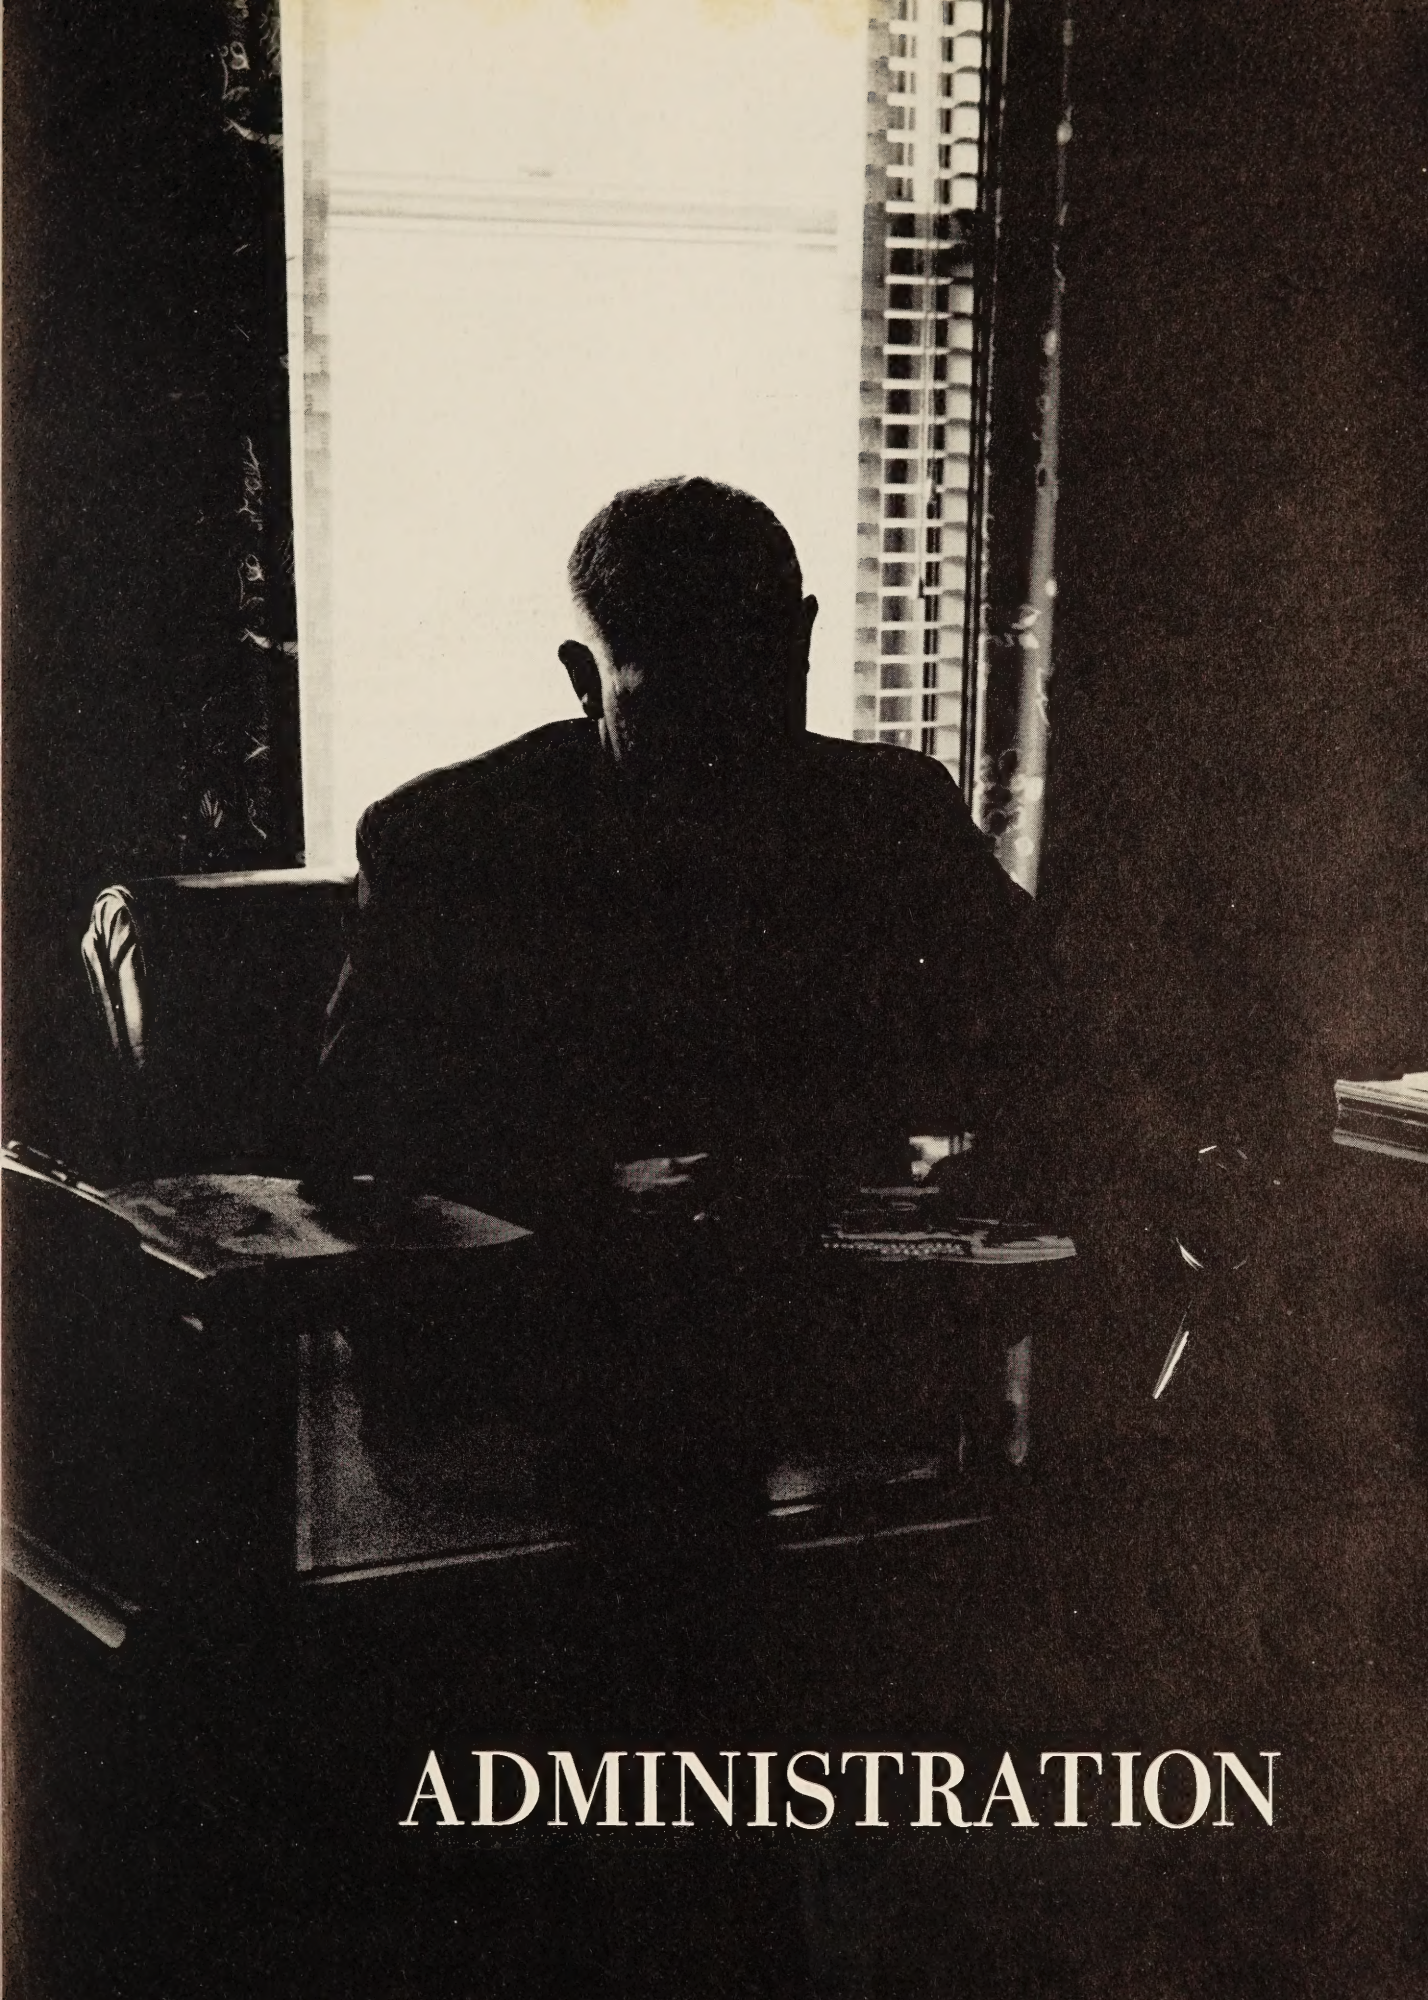
Dedication



Mr. James Blevins

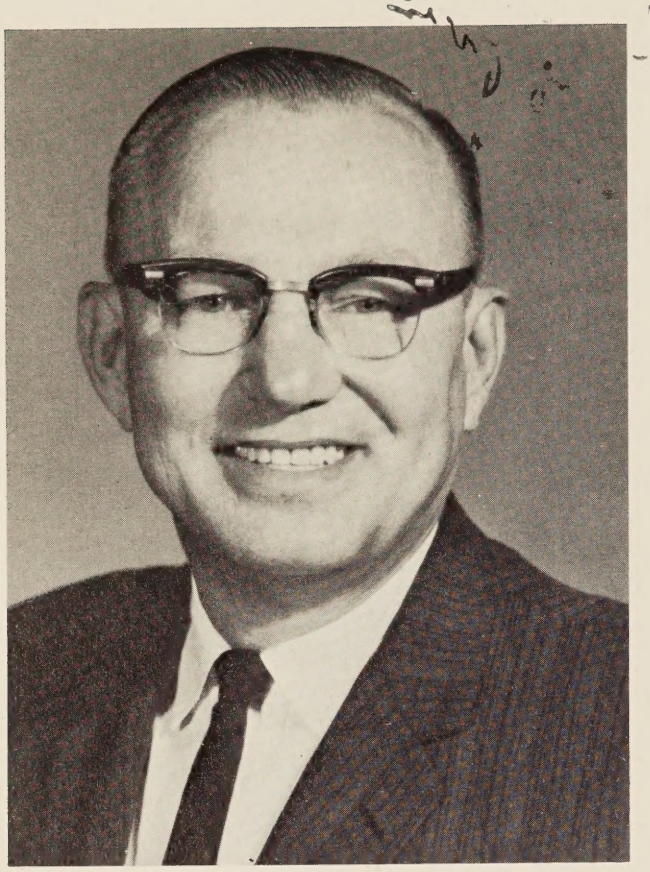
Mrs. Hannah Haga

We, the Class of 1964, wishing to express our respect and gratitude to Mrs. Haga and Mr. Blevins, dedicate this, the 1964 WigWam, to them. They have both been a great source of inspiration in obtaining higher goals, not only for us, but also for all who have known them. Their cheerful co-operation for the successful outcome of many extra-curricular activities has been of great benefit to all of us. With this in mind and their sincere friendship and understanding, we honor them as two unforgettable "Once in a Lifetime" friends.



ADMINISTRATION

PRINCIPAL



"Mr. Gaza Kovach"

Only once in a life time does one meet a friend as helpful and understanding as our principal, Mr. Kovach. Throughout our unforgettable years in high school Mr. Kovach has done much in promoting an interest in school and for that we are most grateful. In spite of a rigorous schedule our principal finds time to lend a helping hand to each individual student. In looking back over our high school days in the years to come, Mr. Kovach will be foremost in our memories of life at Pocahontas High School.

)pportunities Like Edison had
re WAITING FOR YOU

The inventions of Thomas Edison have affected the lives of people everywhere. They have created entire industries — ours, for example.

Under America's Free Enterprise system, inventive people like Edison can expect special compensations — profit, honor and satisfaction.

The hope of attaining such rewards has been one of our nation's greatest incentives to progress. It is a goal that prods imaginative minds in their quests for new products and methods.

Not everyone can be a Thomas Edison. However, every trained, dedicated graduate can anticipate a full measure of our society's rewards. All it takes is a willingness to work harder and contribute more.
